#ADHERENCE2017

# ***“Ending AIDS in Alabama”***

## **Community Dialogue**

### **January 31, 2013**

**Goals:**

- 1. Improve health outcomes;**
- 2. Enhance prevention, treatment and research opportunities;**
- 3. Improve social and economic justice;**
- 4. Foster community collaboration to achieve parity, inclusion and representation; and**
- 5. Identify, evaluate, and apply for alternative sources of funding to maximize long-term sustainability.**

**Data to Care Meeting; JCDH, August 2014**

DEPARTMENT OF HEALTH &amp; HUMAN SERVICES

Public Health Service

# Data to Care (D2C)

*Data to Care: A Public Health Strategy Using HIV Surveillance Data to Support the HIV Care Continuum* toolkit can be accessed under the Public Health Strategies section of [www.effectiveinterventions.org](http://www.effectiveinterventions.org)

The Division of HIV/AIDS Prevention strongly encourages state and local health departments to use HIV case surveillance data to improve the continuum of care in their communities, including the use of individual-level data to offer linkage and re-engagement to care services when appropriate. The *Data to Care* toolkit is one resource to assist programs in moving forward with these activities. The Division of HIV/AIDS Prevention will continue to provide resources and technical assistance to assist you in these efforts.

use HIV case surveillance data to improve the continuum of care in their communities, including the use of individual-level data to offer linkage and re-engagement to care services when appropriate. The *Data to Care* toolkit is one resource to assist programs in moving forward with these activities. The Division of HIV/AIDS Prevention will continue to provide resources and technical assistance to assist you in these efforts.

Sincerely,

/Janet C. Cleveland/

# Alabama Regional Quality Group

#ADHERENCE2017

**“The Alabama Regional Quality Group exists to ensure that those living with HIV/AIDS in Alabama receive quality healthcare through the collaboration of healthcare partners throughout the state. This collaboration aims to continuously improve the quality of HIV care consistent with recognized national standards & current HIV research”**
