

3 - 4 MAY 2018

2018 CONTROLLING THE HIV EPIDEMIC SUMMIT

Why Some are Still Left Behind

Solange Baptiste

May 4, 2018

International Treatment Preparedness Coalition (ITPC)

Why are some left behind?

Don't see/not visible

See but access poor quality support/service

Don't care!

90%

**of all PLWH will
know their HIV
status**

90%

**90% of all PLWH
who know their
status will receive
sustained
antiretroviral
therapy**

90%

**of all PLWH
receiving
antiretroviral
therapy will have
durable
suppression**

607 days!

**90%
Know
status**

**81%
On ART**

**73%
VS**

10-19-27

What does this picture look like by **sub-population**?

What does this picture look like by **age disaggregation**?

What does this picture look like by a **rights-based focus / lens**?

What does this picture look like by **region or geographical location**?

What does this picture look like by **investment, policy, skill and interest**?

COMMUNITY MONITORING

Along the HIV Continuum of Prevention, Care and Treatment

WHO?

- Children less than 15 years old
- Adolescents
 - HIV is estimated to be the number one cause of death among adolescents (10-19) in Africa.
 - Perinatally infected adolescents (fatigue, manipulation of meds)
 - DTG does not make a person adherent!
- Young girls
- Adult males
- Key and priority populations (internally displaced, mobile populations)

To not leave anyone behind we MUST...

- Enable **COMMUNITY MONITORING**: to monitor quality and access of services along the HIV cascade (resistance).

- Sub-optimal quality in service delivery is predictive of drug resistance

- Fund **COMMUNITY ADVOCACY**: to ensure there is a strong community voice.

- Strengthen **COMMUNITY SYSTEMS**: to have more robust organizational structures and capacity to provide innovative services & delivery models.

TREAT PEOPLE RIGHT
