Increasing Prep & Pep Awareness

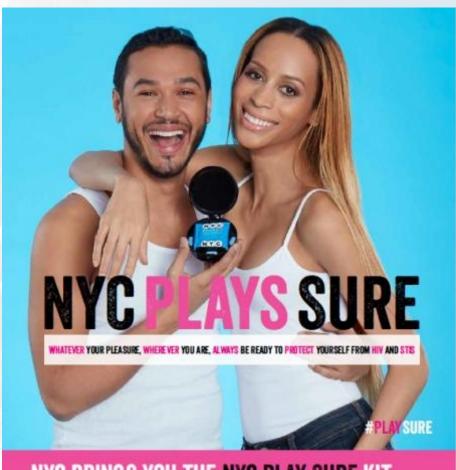

Combination Prevention HIV Neutral Social Marketing Campaign

- Launched a new combination prevention social marketing campaign on World AIDS Day 2015
- NYC Ending the Epidemic funds to support expansion of placement and social marketing

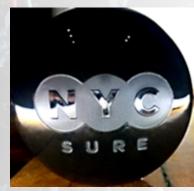

An easy way to carry the right protection combination that works for you.

PLAY SURE: Call 311 or visit nyc.gov/health to design the right HIV and STI prevention combination for you.

CONTROLLING THE HIV EPIDEMIC WITH ANTIRETROVIRALS Progress, Risks, and Opportunities | 13-14 October 2016

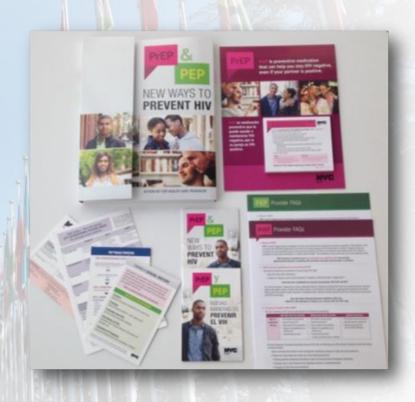

The #PlaySure Kit: Find the Combination for You

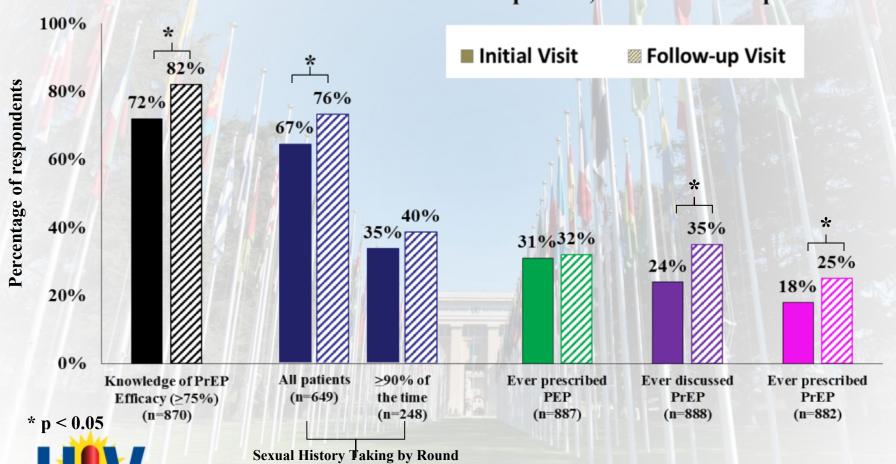

PrEP/PEP Detailing Campaign

- 5 trained DOHMH representatives visited clinical facilities citywide to promote PrEP and PEP
- Facilities chosen via data-driven approach, primarily through HIV Surveillance
- Preference was given to facilities that:
 - Diagnosed at least one man who had sex with men (MSM) of color or
 - Were located in a designated highneed neighborhoods
 - South Bronx, East and Central Harlem, Central Brooklyn

Change in Key Practices

PrEP-Related Knowledge and Practices Among Detailed Providers with Initial and Follow-up Visits, October 2014-April 2015

Progress, Risks, and Opportunities | 13-14 October 2016

PrEP Implementation Workshop Description and Evaluation

- Full-day work session for clinic administrators & medical directors
- Developed with academic partner Dr. Sarit Golub
- Covers components of optimal PrEP program; sample protocols and implementation tools

- Multiple workshops held since October 2014
- Attendees rated confidence in PrEP implementations skills before vs. after workshop; significant increases in all skills measured
- Follow-up survey planned; will evaluate successes and challenges to PrEP implementation

Supporting PrEP in Diverse Service Models

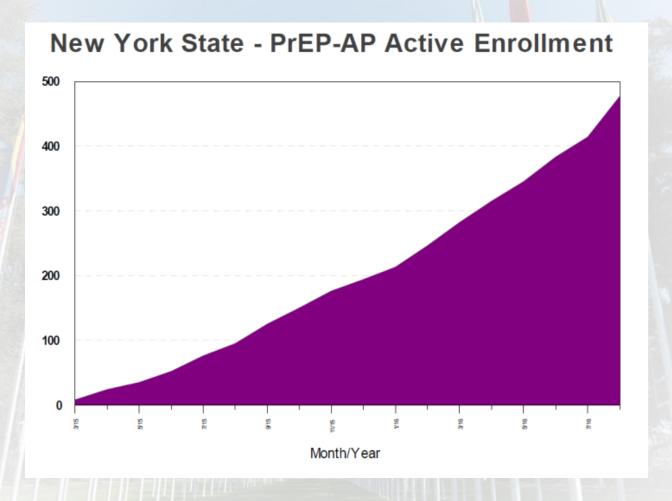

Transforming STD Clinics to Hubs of HIV Care and Prevention

BIOMEDICAL EVALUATION AND INTERVENTION:
INSTANT STARTS OF ARV TREATMENT AND PREVENTION

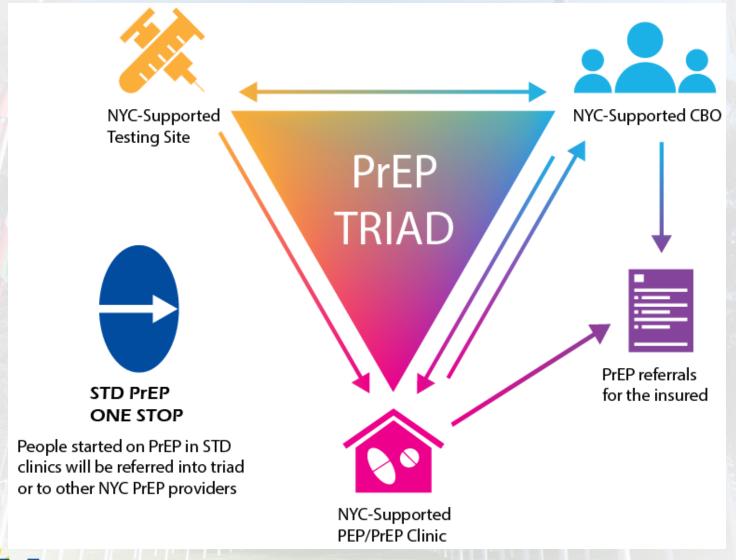

SOCIAL WORK ASSESSMENT FOR SOCIAL DETERMINANTS OF RISK OR DISEASE PROGRESSION + INSURANCE CONNECTION

NAVIGATION TO LONGITUDINAL CARE FOR BOTH HIV NEGATIVE AND POSITIVE CLIENTS

NY State PrEP- Assistance Program

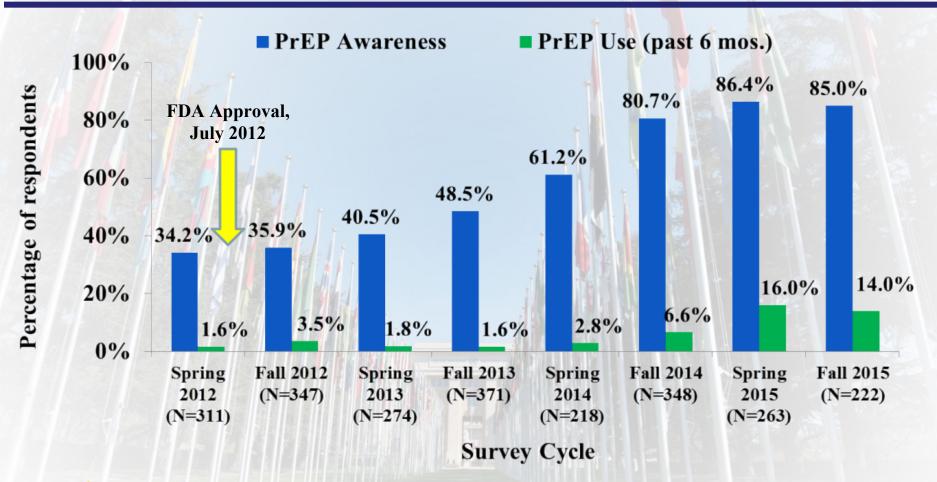

NYC #PlaySure PrEP Triads

Monitoring PrEP Awareness and Uptake

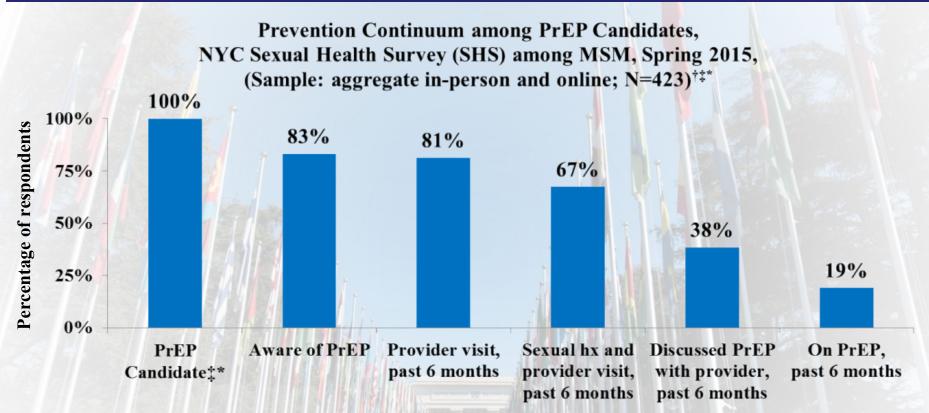

PrEP Awareness and Use among MSM*, NYC Sexual Health Survey, Online Sample, 2012-2014

*Sexually active MSM, HIV-negative/unknown status and aged 18-40

CONTROLLING THE HIV EPIDEMIC WITH ANTIRETROVIRALS Progress, Risks, and Opportunities | 13-14 October 2016 17

HIV Prevention Continuum in NYC

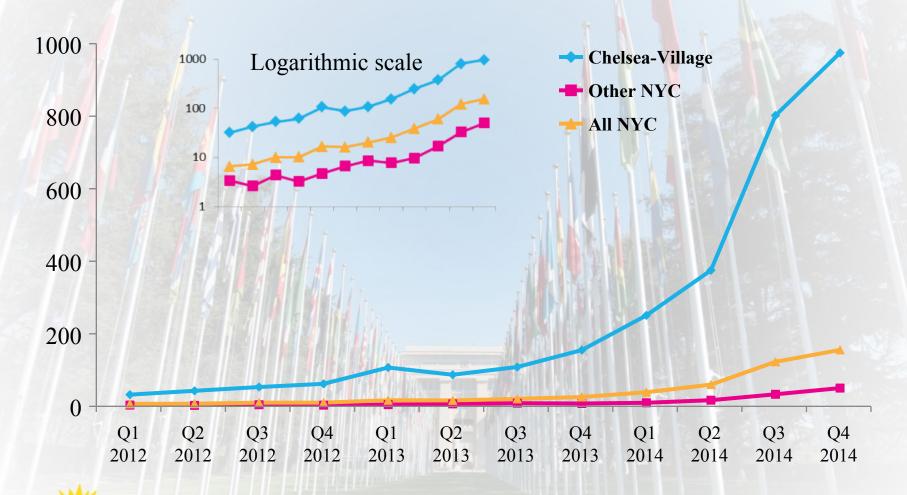

†Sexually active MSM, HIV-negative/unknown status and aged 18-40

‡PrEP candidates defined as reporting diagnosis of an anal STI in the past year or any of the following in the previous 6 months: unprotected anal intercourse, transactional sex, use of cocaine, crack, methamphetamines, or injection drugs, using PEP or having had an HIV-positive partner. Mirrors NYS PrEP guidance.

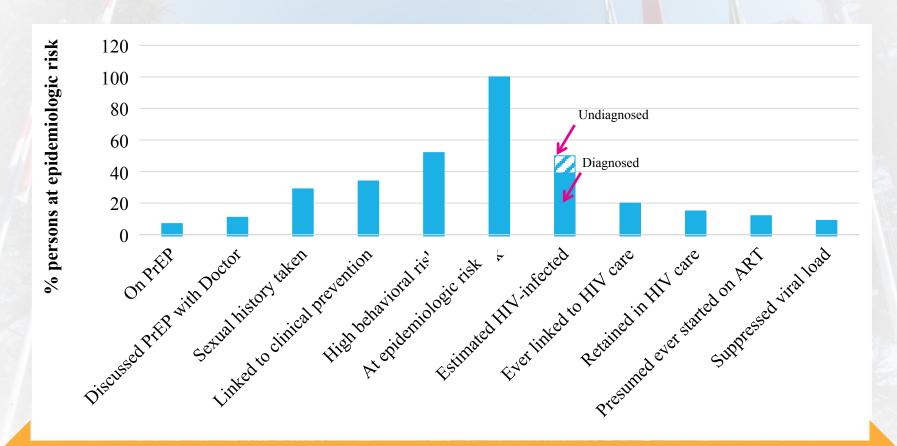

*PrEP candidates represent 71 % of all HIV-negative/unknown respondents.

Prescription per 100,000 Patients Seen at Ambulatory Care Practices (n=538), NYC, 2012-2014

The New HIV Neutral Continuum of Care (Theoretical)

HIV CARE AND PREVENTION ARE THE SAME = GETTING TO HIV NEUTRAL

THANK YOU!
