YES

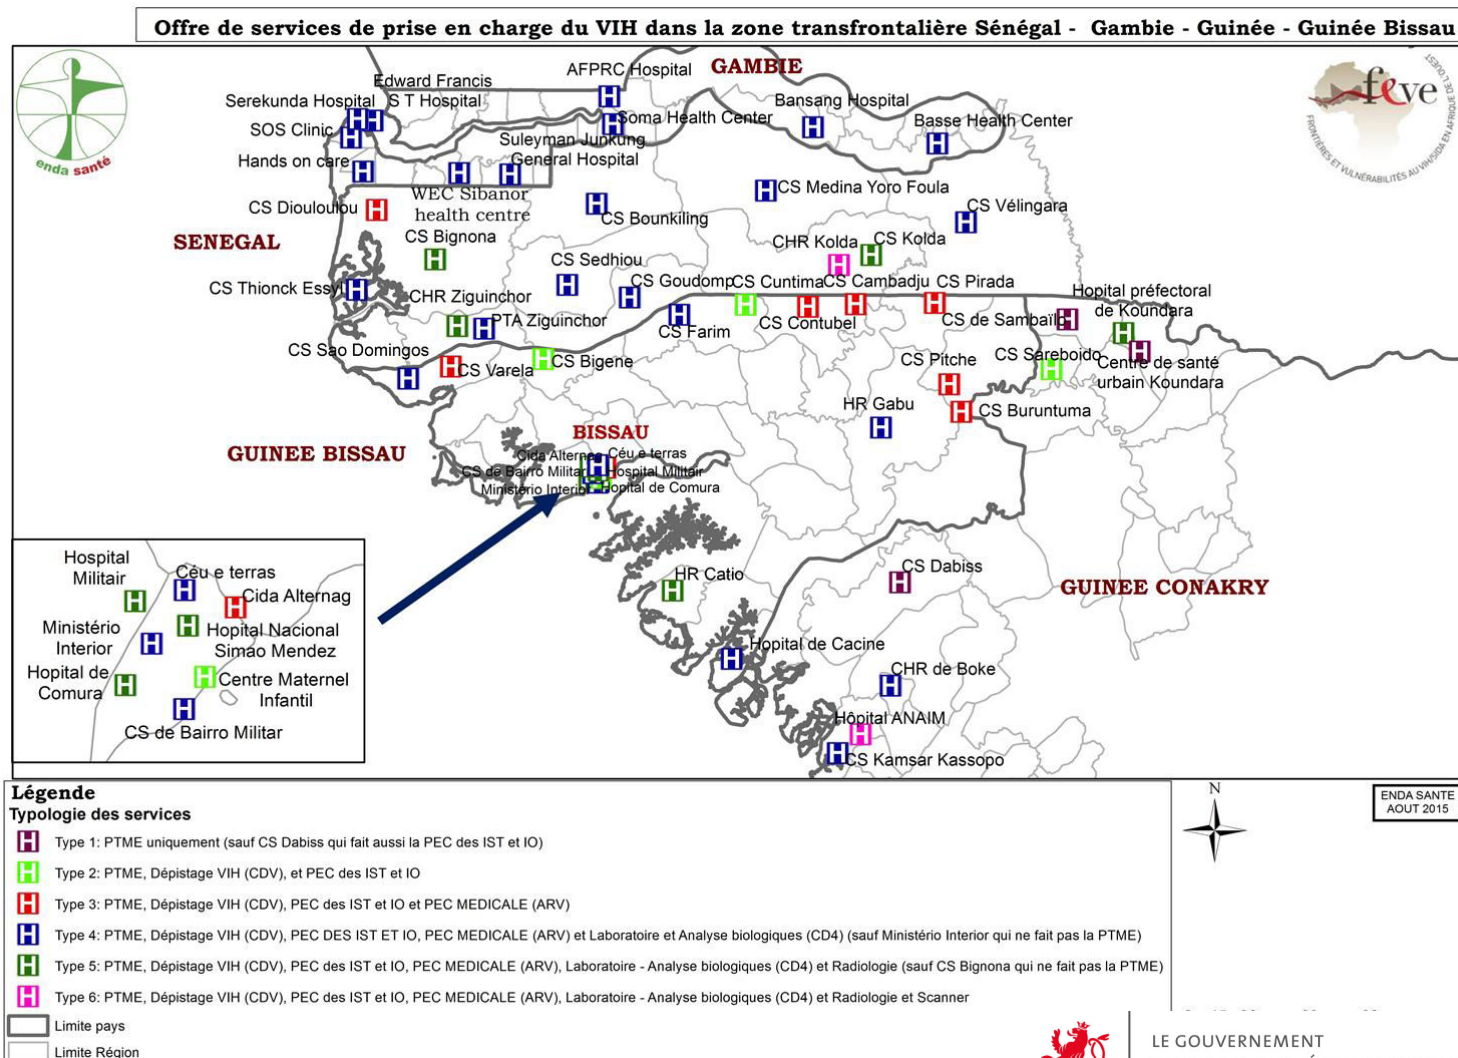

Local 90 90 90

- Connecting local health care service and organisations to deliver comprehensive services to KP

Local health networks

**Adapt testing,
treatment
service
provision to
local realities
with local
actors :**

**Mobile clinics
with
comprehensive
services (HIV/
STI/ TB testing ,
referral to ART
centers,
individual case
management**

**Communnity testing+ self testing + treatment + individual case management
+ human rights**

Key lessons

- 1. Overcoming barriers and accelerating access to testing and treatment through innovation in local service delivery in urban cities and cross border areas*
- 2. connecting local and sub-local networks and improve coverage and quality of services*
- 3. Working for and with KP at all stage, more individual case management(Vs Standard management) + Self-testing and greater retention*
- 4. Addressing Stigma, discrimination, Human rights violation at local and national level is crucial to attain 90 90 90*
