

**IAPAC AFRICAN REGIONAL CAPACITY-BUILDING HUB LIVE PROGRAM: HIV**

DATE	
FACILITY, CITY, COUNTRY	
DATE TBD	
	<b>Pre-Course Reading:</b> <i>WHO Consolidated Guidelines on the Use of ARV Drugs for Treating and Preventing HIV Infection; IAPAC Guidelines on Optimizing the HIV Care Continuum; Leveraging HIV Treatment to End AIDS, Stop New HIV Infections, and Avoid the Cost</i>
8:00am-9:00am	<b>Registration/Check-In/Breakfast</b>
9:00am-9:15am	<b>Welcome, Introductions, and Program Overview</b>
9:15am-9:45am	<b>Module 1: Defining, Measuring, and Monitoring the HIV Care Continuum</b> <i>Source: IAPAC Guidelines on Optimizing the HIV Care Continuum</i>
9:45am - 10:15am	<b>Module 2: Optimizing the Environment by Mitigating Stigma/Discrimination in the HIV Care Setting</b> <i>Source: IAPAC Guidelines on Optimizing the HIV Care Continuum</i>
10:15am-11:00am	<b>Module 3: Earlier HIV Testing and Linkage to and Entry into Preventative and Therapeutic Care</b> <i>Sources: WHO Consolidated Guidelines on the Use of ARV Drugs for Treating and Preventing HIV Infection; IAPAC Guidelines on Optimizing the HIV Care Continuum</i>
11:00am-11:30am	<b>Break</b>
11:30am-12:30pm	<b>Learning Activity: Case Study Application (teams given information about a patient, will use the information from Modules 2-3 to design assessment, diagnosis, and care plan; what strategies work, how to adapt others that may not work directly within a given setting, challenges anticipated, leveraging opportunities; followed by whole class discussion)</b>  <b>MATERIALS:</b> Case studies relevant to the region printed off for learners to use
12:30pm-1:30pm	<b>Lunch</b>
1:30pm-2:00pm	<b>Module 4: ART Review - Implementing Earlier Initiation and First-Line Regimen Selection</b> <i>Sources: WHO Consolidated Guidelines on the Use of ARV Drugs for Treating and Preventing HIV Infection; IAPAC Guidelines on Optimizing the HIV Care Continuum</i>
2:00pm-2:30pm	<b>Module 5: ART Review - Defining Treatment Failure and Second-Line Regimen Selection</b> <i>Sources: WHO Consolidated Guidelines on the Use of ARV Drugs for Treating and Preventing HIV Infection; IAPAC Guidelines on Optimizing the HIV Care Continuum</i>
3:00pm-3:45pm	<b>Module 6: ART Review - Special Considerations for the Clinical Management of Pregnant Women</b> <i>Sources: WHO Consolidated Guidelines on the Use of ARV Drugs for Treating and Preventing HIV Infection</i>
2:30pm-3:00pm	<b>Module 7: Beyond the ART Prescription - Achieving Long-Term Retention and Engagement in Care</b> <i>Source: IAPAC Guidelines on Optimizing the HIV Care Continuum</i>
3:45pm-4:15pm	<b>Break</b>
4:15pm-5:15pm	<b>Learning Activity: Whole Group Case Study Review (tying in content from Modules 2-7)</b> <b>MATERIALS:</b> Case studies relevant to the region printed off for learners to use
5:15pm-5:30pm	<b>Post-Test and Evaluation</b>
5:30pm	<b>Adjourn</b>

**IAPAC AFRICAN REGIONAL CAPACITY-BUILDING HUB LIVE PROGRAM: HBV**

DATE	
FACILITY, CITY, COUNTRY	
DATE TBD	
	Pre-Course Reading: <i>WHO Guidelines for the Prevention, Care and Treatment of Persons with Hepatitis B Virus Infection</i>
8:00am-9:00am	Registration/Check-In/Breakfast
9:00am-9:15am	Welcome, Introductions, and Program Overview
9:15am-9:45am	Module 1: Review - Virology of Hepatitis B Virus Infection <i>Source:</i>
9:45am - 10:15am	Module 2: Assessment of Liver Disease Stage and HBV Treatment Considerations <i>Source: WHO Guidelines for the Prevention, Care and Treatment of Persons with Hepatitis B Virus Infection</i>
10:15am-10:45am	Module 3: HBV Treatment: First-Line Treatment of Chronic HBV Infection <i>Sources: WHO Guidelines for the Prevention, Care and Treatment of Persons with Hepatitis B Virus Infection</i>
10:45am-11:15am	Break
11:5am-12:15pm	Learning Activity: Case Study Application (teams given information about a patient will use the information from Modules 1-3 to assess patient and design/implement care and treatment plan; what strategies work, how to adapt others that may not work directly within a given setting, challenges anticipated, leveraging opportunities; followed by whole class discussion)  MATERIALS: Case studies relevant to the region printed off for learners to use
12:15pm-1:15pm	Lunch
1:15pm-1:45pm	Module 4: Identification and Management of HBV Treatment Failure <i>Sources: WHO Consolidated Guidelines on the Use of ARV Drugs for Treating and Preventing HIV Infection; IAPAC Guidelines on Optimizing the HIV Care Continuum</i>
1:45pm-2:15pm	Module 5: HBV and Pregnancy - Management Considerations <i>Source: WHO Guidelines for the Prevention, Care and Treatment of Persons with Hepatitis B Virus Infection</i>
2:15pm-2:45pm	Module 6: Management Considerations for HIV-Coinfected Patients <i>Source: WHO Guidelines for the Prevention, Care and Treatment of Persons with Hepatitis B Virus Infection</i>
2:45pm-3:00pm	Break
3:00pm-4:00pm	Learning Activity: Case Study Application (teams given information about patients with treatment failure, HIV coinfection, as well as a pregnant patient, will use the information from Modules 4-6 to design treatment plan; what strategies work, how to adapt others that may not work directly within a given setting, challenges anticipated, leveraging opportunities; followed by whole class discussion)
4:00pm-4:30pm	Post-Test and Evaluation
4:30pm	Adjourn

**IAPAC AFRICAN REGIONAL CAPACITY-BUILDING HUB LIVE PROGRAM: HCV**

DATE	
FACILITY, CITY, COUNTRY	
<b>DATE TBD</b>	
	<b>Pre-Course Reading:</b> <i>WHO Guidelines for the Screening, Care and Treatment of Persons with Hepatitis C Infection</i>
<b>8:00am-9:00am</b>	<b>Registration/Check-In/Breakfast</b>
<b>9:00am-9:15am</b>	<b>Welcome, Introductions, and Program Overview</b>
<b>9:15am-9:45am</b>	<b>Module 1: Review - Virology of Hepatitis C Virus Infection</b> <i>Source:</i>
<b>9:45am - 10:15am</b>	<b>Module 2: Evaluation of the HCV-Infected Patient - The Initial Encounter</b> [Screening; testing; diagnosis of chronic vs acute HCV; care plan; risk reduction] <i>Source: WHO Guidelines for the Screening, Care and Treatment of Persons with Hepatitis C Infection</i>
<b>10:15am-10:45am</b>	<b>Module 3: Review - The HCV Treatment/Cure Landscape</b> [New HCV therapies; treatment strategies; patient preparation] <i>Sources:</i>
<b>10:45am-11:15am</b>	<b>Break</b>
<b>11:15am-12:15pm</b>	<b>Module 4: Chronic HCV Treatment Recommendations</b> [Regimen selection; enhancing adherence; managing treatment failure] <i>Source: WHO Guidelines for the Screening, Care and Treatment of Persons with Hepatitis C Infection</i>
<b>12:15pm-12:45</b>	<b>Module 5: Special Considerations for HCV Management in Specific Populations</b> [HIV coinfection; cirrhosis; renal impairment] <i>Source: WHO Guidelines for the Screening, Care and Treatment of Persons with Hepatitis C Infection</i>
<b>12:45pm-1:45pm</b>	<b>Lunch</b>
<b>1:45pm-3:00pm</b>	<b>Learning Activity: Case Study Application</b> (teams given information about two patients will use the information from Modules 2-5 to design treatment plan; what strategies work, how to adapt others that may not work directly within a given setting, challenges anticipated, leveraging opportunities; followed by whole class discussion)  <b>MATERIALS:</b> Case studies relevant to the region printed off for learners to use
<b>3:00pm-3:30pm</b>	<b>Post-Test and Evaluation</b>
<b>3:30pm</b>	<b>Adjourn</b>
