CURRENT SITUATION.

AIDS WHO?

CHALLENGES

- Lack of STD-awareness across 13 - 24 years olds across the world
- Lack of sex education
- Increased sense of unease of young people with their own bodies
- Lack of youth friendly services
- Social stigma (STI, HIV)
- Challenging for young people to access services
- Lack of innovative ideas that make a difference for young people

KEY LEARNINGS.

TO TAKE AWAY.

LEARNINGS

- Help young people to grow & develop to become partners
- Listening can be difficult, but it is necessary. Take each other seriously
- Provide a clear framework and set rules together (collaboration)
- Do what is relevant for your target group and not what you think is right for yourself
- Try and error: try things out quickly, be prepared to make mistakes
