Challenges

- Politicization of health
- The Netherlands late to introduce PrEP
- Now finally PrEP available for those most at risk

#FTC2023 @FastTrackCities @FTC2030 @IAPAC

Opportunities

- Comprehensive sexuality education
- Stigmafree care
- Community and key population health centers

@FastTrackCities @FTC2030 @IAPAC

Global outlook: lessons learnt

- Acces to prevention and innovation is crucial
- 70% new HIV-infections amongst key populations and partners
- Do what's possible in local context
- Not ideological, but pragmatic

@FastTrackCities @FTC2030 @IAPAC

Shared responsibility

- International solidarity
- Pharmaceutical companies make innovations available
- National governments to keep HIV as funding priority
- Cities investing in HIV-response

#FTC2023 @FTC2030 @IAPAC

Role of cities

- Places of diversity --> close to communities
- Advocate for rights or silent diplomacy?
- Invest where the gaps are
