Supported through an unrestricted grant from ViiV Healthcare, which had no input regarding the participants who will attend and/or the presentations that will be delivered at this alignment workshop.

WELCOME

Dear Colleagues,

On behalf of the International Association of Providers of AIDS Care (IAPAC) and Fast-Track Cities Institute (FTCI), welcome to one of the 19 workshops we are coordinating across the country to align efforts between the Ending the HIV Epidemic (EHE) and Fast-Track Cities (FTC) initiatives. We are delighted to convene local stakeholders today to focus on the progress made and challenges left to overcome as Fort Lauderdale and Broward County strive to attain EHE and FTC objectives.

During this EHE-FTC Alignment Workshop, you will engage in discussions about efforts to ensure equitable access to HIV testing, prevention, care, treatment, and social support services within the context of an environment enabled to respect every person's dignity. You will also hear from peers at the city, county, and state about cross-cutting challenges to prevention and treatment policy implementation, county-state policy alignment, and community access to HIV services; and will participate in moderated discussions about criminalization as a barrier to ending HIV, equitably scaling up PrEP access and utilization, and implementing HIV status neutrality in practice. While our goals may seem ambitious for a one-day workshop, I view today as an important first step in leveraging the power of partnership between the EHE and FTC initiatives.

Thank you to our colleagues from Fort Lauderdale who advised us on the workshop program and faculty selection. We also express our gratitude to our panelists and presenters for sharing their expertise around various aspects of the HIV response that are critical to our collective success. We appreciate ViiV Healthcare for supporting this series of EHE- FTC Alignment Workshops as part of their longstanding corporate partnership with Fast-Track Cities. Ultimately, I recognize the multi-stakeholder HIV leadership on display in Fort Lauderdale, including from Mayor Dean Trantalis, who is demonstrating the important role political determinants of health can play in improving the health and well-being of his constituents.

In closing, I take this opportunity to invite you to join us at the Fast-Track Cities 2023 conference, which will take place September 25-27, 2023, in Amsterdam. Our aim is to highlight success across the Fast-Track Cities network and share best practices in accelerating urban HIV, tuberculosis, and viral hepatitis responses. I encourage you to submit abstracts by June 16, 2023, featuring your hard work and take advantage of an opportunity to learn from the other 500-plus cities and municipalities worldwide that are committed to ending their urban HIV epidemics by 2030.

I wish you continued success as you strive to attain EHE and FTC objectives on a trajectory towards getting to zero new HIV infections, zero AIDS-related deaths, and zero HIV-related stigma.

Warmest regards,

Dr. José M. Zuniga
President/CEO

8:30 AM – 9:00 AM
Registration

9:00 AM – 9:45 AM
Welcome Remarks

Welcome on Behalf of IAPAC and Fast-Track Cities

Dashiell Sears
