

# Peers Reaching Out and Modeling Intervention Strategies (PROMISE)

#continuum2025

- PROMISE is a **community-level** HIV/STD prevention intervention to reduce HIV risk behaviors and increase engagement in HIV care.
- Supported by the CDC through the NOFOs **PS15-1502 & PS21-2102** ‘Comprehensive High-Impact Prevention Projects for Community-Based Organizations.’
- In Puerto Rico, high risk behaviors and HIV prevalence have been identified among persons who inject drugs (**PWID**).
- This project describes the implementation of PROMISE among PWID in the western region of PR by **Migrant Health Center** (MHC) since **2015**.
