

CONTROLLING THE HIV EPIDEMIC WITH
ANTIRETROVIRALS

Having the Courage
of Our Convictions

1 - 2 October 2015 • Paris

TasP Implementation: Strategic Lessons from the Frontlines Brazil

Marcelo Freitas, MD.

Coordinator HIV Care and Treatment

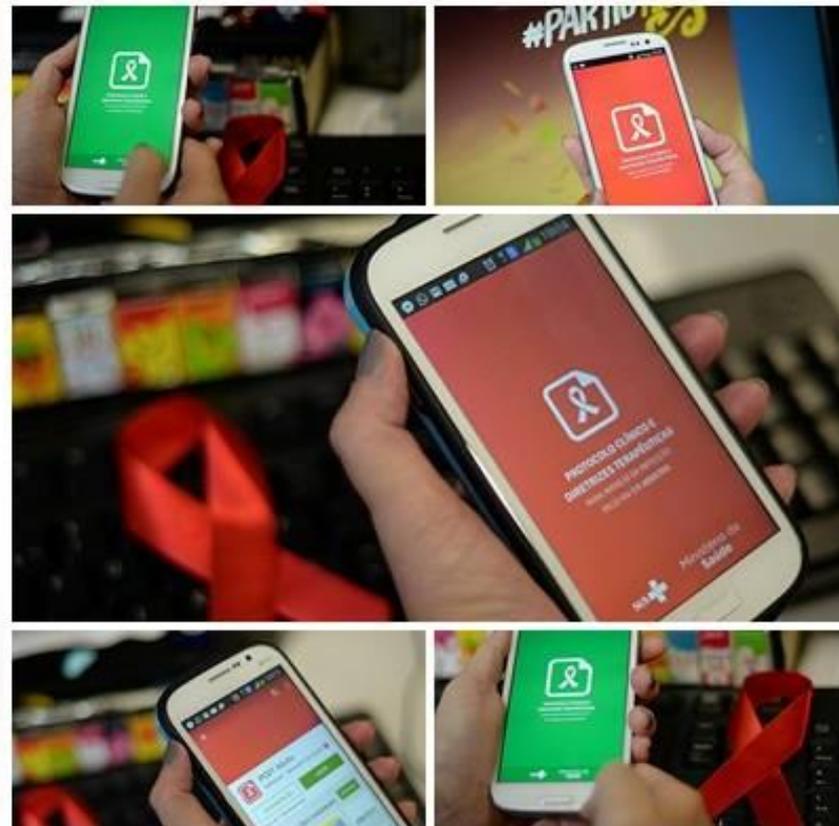

STD, AIDS and Viral Hepatitis Department
Secretariat of Health Surveillance
Ministry of Health - Brazil

CONTROLLING THE HIV EPIDEMIC WITH ANTIRETROVIRALS
Having the Courage of Our Convictions

TasP Implementation - Brazil

- Brazil was the first developing country and the third in the world to adopt Treatment as Prevention as a national policy;
- December 2013: publication of national updated guidelines recommending treatment for all PLWHA, regardless CD4 count or clinical condition.
